WORK EXPERIENCE

01/2022 – Present

Shadowfax, Software Development Engineer - 2 (Android)

- Led Android development for the hyperlocal vertical of our delivery partner app, improving Play Store rating from **3.0 → 4.6** while scaling order volume from **20K+ to 100K+ daily orders**.
- Designed and launched a **new-order popup workflow** enabling riders to accept orders without opening the app, reducing acceptance time from **42s to <10s**.
- Drove app performance and cost reductions by eliminating redundant dependencies and replacing third-party tools with internal solutions.
- Improved app reliability and user experience, maintaining **99.9%+ crash-free sessions** at scale.
- Currently leading the e-commerce vertical via an **offline-first Android app powering 1.5M+ daily deliveries**.

EDUCATION

2018 – 2022

Bachelor of Technology, Computer Science and Engineering, PES University

- CGPA - 8.6/10
- Specialization in Machine Intelligence and Data Science
- Awarded the Prof MR Doreswamy Scholarship

SKILLS

Mobile App Development — Native Android Development with Kotlin, Jetpack Compose, MVVM & Clean Architecture, Coroutines, React Native

Fundamentals — Operating Systems, Computer Networks, DBMS, Version Control, SOLID Principles

Backend — Python, Django

AI Tools — Prompt Engineering, AI-assisted Coding & Workflow Automation (Excellent at prompting AI to get the job done)

AWARDS

Spot Award (2022 & 2024), GEM Award (2025), Shadowfax Technologies Pvt Ltd

- Recognized by VP of Tech, Mr. Sumit Pilankar, for consistently delivering impactful solutions, outstanding teamwork, and dedication from day one.

PROJECTS

Reflections, A Daily Journaling App

Created an easy-to-use, privacy-focused journaling app. Your thoughts stay secure locally, with optional encrypted backups to Google Drive.

Proxam

Built a secure proctoring system that helps universities conduct online exams confidently. It leverages computer vision and machine learning to accurately detect cheating, helping maintain academic integrity.

Anon Tips, Anonymous Crime Reporting Platform

Developed a user-friendly crime reporting system for Bengaluru City Police, with strong spam prevention and secure anonymous logins. Managed thousands of user reports, providing valuable assistance until discontinued due to regulatory reasons.
